# Swan Love

Swans show their affection by doing a beautiful water dance together. Fold as indicated to move these swans together! What shape do they form when joined? Can you make your swans dance?

1. Turn the paper over and fold along this line so you see just one swan. Make a crease and then unfold the paper so you see both swans again.

2. Start with both swans facing you. Fold the paper in half along this line by pulling the right edge to the left edge. Crease the fold. Then open the paper to see both swans. Hold the paper with two hands, one at each swan tail. Move the left swan toward the right, meeting at the blue line.
